EXPERIENCE

Proxy Rent Business

Founder & Developer
Poland, Self-Employed

Scaled a proxy rental platform (React/Flask, SQL, REST API) to **300+ concurrent users** with **99.8% uptime**.

Automated 70% of operations (proxy rotation, inventory) via backend APIs, cutting manual workload.

Integrated payments (subscriptions/pay-as-you-go) and fraud detection, ensuring secure revenue streams.

Developed real-time admin dashboards and Telegram bots for user support and notifications.

Engineered scalable infrastructure using Docker, Nginx, and Redis for high-performance load balancing.

Focus: Full-stack development, scalable systems, and business automation.
